CAREER OVERVIEW

As an inspiring frontend developer and UI/UX designer, I am a creative individual with a background in UI/UX design and proficiency in using Figma to develop engaging prototypes. I am eager to grow as a designer and developer, having completed various commissions to enhance my technical skills. I look forward to applying my design and development experience in a new role while continuing to learn and evolve in the field.

ACADEMIC EXPERIENCE

IT Services (Freelance)

2023 - 2024

- I began freelancing to gain practical experience while financing my studies.
- Engaged in activities utilizing video editing, designing, and image editing.
- Developed programming portfolios to showcase technical skills and completed projects.
- Improved my communication skills by interacting effectively with clients and understanding their needs.

UI/UX Designer – VetConnect

April 2024

BULSU - 13th ICT Congress Website UI Designing Contest

- Automated Record Keeping: VetConnect is an innovative application designed to automate the management of pet records, revolutionizing how pet owners track their animals' health.
- Crafted in Figma, the application boasts an intuitive and visually appealing design, ensuring users can easily navigate through various functionalities without a steep learning curve.
- Working on VetConnect has significantly contributed to my growth as a UI/UX designer.
